

# Bladder cancer organisations around the world

Fight Bladder Cancer, as a UK-based charity, welcomes visitors to our website from all over the world. We hope that our advice and guidance is helpful wherever in the world you are.

There are other bladder cancer advocacy organisations in different parts of the world that you could make contact with. They will also be able to support you and give you information and advice that could be more pertinent to the way bladder cancer is treated where you live.

We work with as many of these other organisations as possible in our international campaigns, and we are currently working to assist with setting up new patient groups across Europe.
